

Federal Emergency Management Agency

Washington, D.C. 20472

September 28, 2011

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

IN REPLY REFER TO:
101/155

The Honorable Bill Dane
Mayor, City of Kearney
100 East Washington Street
Kearney, Missouri 64060

Community: City of Kearney,
Clay County, Missouri
Community No.: 290095

Dear Mayor Dane:

On January 14, 2011, the Department of Homeland Security's Federal Emergency Management Agency (FEMA) provided your community with Preliminary copies of a Flood Insurance Study (FIS) report and Flood Insurance Rate Map (FIRM). The FIS report and FIRM for your community were prepared in our countywide format, which means that flood hazard information for the entire geographic area of the county, including your community and all incorporated areas, was presented. This information makes it appropriate to modify the elevations of the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood) for certain locations in the City of Kearney, Clay County, Missouri. Public notification by way of a Standard Newspaper Notice that the proposed modifications in Base Flood Elevations (BFEs) are posted in the BFE Notice for Studies on the FEMA Website <http://www.fema.gov/plan/prevent/fhm/bfe> will be given in the *Kearney Courier* on or about October 6, 2011 and October 13, 2011. The BFEs for the flooding sources are listed in the table at the end of the BFE Notice for Studies. Also, the proposed BFE determinations can be obtained by calling our FEMA Map Information eXchange (FMIX), toll free, at 1-877-FEMA MAP (1-877-336-2627). A copy of the Standard Newspaper Notice and a copy of the Notice of Proposed Flood Elevation Determinations published in the *Federal Register*, on May 10, 2011 at Vol. 76, Pages 26970 through 26974 are enclosed for your information.

These proposed BFEs, if finalized, will become the basis for the floodplain management measures that your community must adopt or show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). However, before any revised BFEs are effective for floodplain management purposes, you will be provided an opportunity to appeal the proposed BFEs.

Section 110 of the Flood Disaster Protection Act of 1973 (Public Law 93-234) is intended to ensure an equitable balancing of all interests involved in the setting of BFE determinations. The legislation provides for an explicit process of notification and appeals for your community and for private persons prior to this office making the BFE determinations final. The appeal procedure is outlined below for your information. The regulations FEMA developed to implement Section 110 are listed in Title 44, Chapter I, Part 67, Code of Federal Regulations. A copy of the NFIP regulations is enclosed.

During the 90-day appeal period following the second publication in the referenced newspaper, any owner or lessee of real property in your community who believes his or her property rights will be adversely affected by the BFE determinations may appeal to you, or to an agency that you

publicly designate. You must send copies of the individual appeals to the FEMA Region as soon as you receive them. Note that the 90-day appeal period is statutory and cannot be extended or shortened for any reason. It is important to know, however, that the sole basis for the appeals is having knowledge or information indicating that the proposed BFE determinations are scientifically or technically incorrect. However, inquiries regarding data other than the proposed BFE determinations (e.g., incorrect street names, typographical errors, omissions) will be considered as comments and not appeals. Any applicable changes will be made before the revised FIS report and FIRM become effective.

During the appeal period, private citizens who want to appeal should present to you the scientific or technical data intended to negate or contradict FEMA's findings in any form, as you specify. FEMA requests that you review and consolidate all appeals by private persons, and issue a written opinion stating whether the evidence presented is sufficient to justify an official appeal by your community on behalf of such persons. Your decision on whether an appeal by the community in its own name will be made must be sent to this office within the 90-day appeal period and at the same time a copy must be sent to the FEMA Region VII.

Any documents submitted to you without evidence that they were sent within 90 days of the second publication in the local newspaper will be considered comments. Your community may find it appropriate to call further attention to the proposed BFE determinations and to the appeal procedure by using a press release or other public notice.

If the FEMA Region does not receive an appeal from your community on behalf of individuals within the 90 days provided, FEMA shall consolidate and review on their own merits the individual appeals, which you have on file and forwarded to us. FEMA's final decision will be in writing, and copies will be sent to each individual appellant and the State coordinating agency.

The appeal resolution process will consider any scientific or technical data submitted by your community intended to negate or contradict the information upon which the proposed BFE determinations are based. The appeal will be resolved by consultation with officials of the local government involved, an administrative hearing, or submission of the conflicting data to an independent scientific body or appropriate Federal agency for a determination. FEMA will determine the method for resolution.

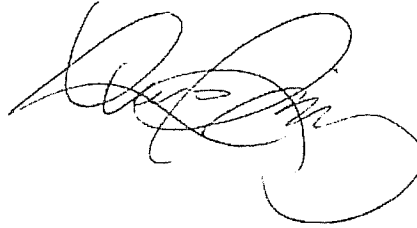

If your community cannot submit scientific or technical data before the end of the 90-day appeal period, you may nevertheless submit data at any time as specified in Part 65 of the NFIP Regulations. If warranted, FEMA will revise the FIRM again after the effective date.

The reports and other information used for the final determination will be made available for public inspection. Until the conflict of data is resolved and the revised FIRM becomes effective, flood insurance available within your community shall continue to be available in accordance with the effective FIRM dated April 16, 2003.

If warranted by substantive changes, during the appeal period, FEMA will send to you revised copies of the FIS report and FIRM. At the end of the 90-day appeal period and following the resolution of any appeals, FEMA will send you a letter of final BFE determinations.

If you have any questions regarding the proposed BFE determinations, revised FIS report, or revised FIRM for your community, please contact the FEMA Map Information eXchange, toll free, at 1-877-FEMA MAP (1-877-336-2627).

Sincerely,

A handwritten signature in black ink, appearing to read 'Luis Rodriguez', with a large, stylized flourish at the end.

Luis Rodriguez, P.E., Chief
Engineering Management Branch
Federal Insurance and Mitigation Administration

DEPARTMENT OF HOMELAND SECURITY

FEDERAL EMERGENCY MANAGEMENT AGENCY

Proposed Base Flood Elevation Determination for the Cities of Avondale, Excelsior Springs, Gladstone, Glenaire, Holt, Kearney, Lawson, Liberty, Missouri City, Mosby, North Kansas City, Pleasant Valley, Randolph, Smithville, the Villages of Claycomo, Prathersville, and the Unincorporated Areas of Clay County, Missouri. The Department of Homeland Security's Federal Emergency Management Agency solicits technical information or comments on the proposed Base (1-percent-annual-chance) Flood Elevations (BFEs) shown in the Preliminary Flood Insurance Study (FIS) and on the Preliminary Flood Insurance Rate Map (FIRM) for your community. These proposed BFEs are the basis for the floodplain management measures that your community is required to either adopt or show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). For a detailed listing of the proposed BFEs and information on the statutory period provided for appeals, please visit FEMA's website at <http://www.fema.gov/plan/prevent/fhm/bfe>, or call the FEMA Map Information eXchange, toll free, at 1-877-FEMA MAP.

Notice of Consultation advising the public that the NIGC was conducting a comprehensive review of its regulations and requesting public comment on the process for conducting the regulatory review. On April 4, 2011, after holding eight consultation meetings and reviewing all comments, NIGC published a Notice of Regulatory Review Schedule setting out detailed consultation schedules and review processes. NIGC divided the regulations to be reviewed into five groups, and each group will be reviewed in three phases, the Drafting Phase, the Notice of Proposed Rulemaking phase, and the Notice of Final Rule Phase.

The purpose of this document is to establish a May 31, 2011, deadline for submittal of written comments on the preliminary draft of the fee regulation and to inform the public that the Commission will provide at least 30 days for written comments on any preliminary drafts circulated by the Commission during the Drafting Phase of the Regulatory Review.

DATES: Submit comments on the preliminary draft of the fee regulation by May 31, 2011.

ADDRESSES: Comments sent by electronic mail are strongly encouraged. Electronic submissions should be directed to reg.review@nigc.gov. See *File Formats and Required Information for Submitting Comments* under

SUPPLEMENTARY INFORMATION, below, for instructions. Submissions sent by regular mail should be addressed to Lael Echo-Hawk, Counselor to the Chair, National Indian Gaming Commission, 1441 L Street NW., Suite 9100, Washington, DC 20005.

FOR FURTHER INFORMATION CONTACT: Lael Echo-Hawk, National Indian Gaming Commission, 1441 L Street NW., Suite 9100 Washington, DC 20005. Telephone: 202-632-7009; e-mail: reg.review@nigc.gov.

SUPPLEMENTARY INFORMATION: On November 18, 2010, NIGC issued a Notice of Inquiry and Notice of Consultation advising the public that the NIGC was conducting a comprehensive review of all regulations promulgated to implement 25 U.S.C. 2701-2721 of the Indian Gaming Regulatory Act (IGRA) and requesting public comment on the process for conducting the regulatory review. On April 4, 2011, NIGC published a Notice of Regulatory Review Schedule setting out detailed consultation schedules and review processes.

The Commission's regulatory review process establishes three phases of review: A Drafting Phase, a Notice of Proposed Rulemaking Phase, and a

Notice of Final Rule Phase. The Drafting Phase is intended to provide for tribal participation early in the drafting or amendment of any rule with tribal implications. During the drafting phase, the Commission may circulate a preliminary draft, preliminary proposed amendments to a current regulation, or preliminary proposals provided by Tribes or tribal organizations. The Drafting Phase includes an opportunity for the public to provide written comments on preliminary drafts. On April 22, 2011, the Commission released a preliminary draft of amendments to 25 CFR Part 514. This document establishes a May 31, 2011 deadline to provide written comments on the preliminary draft of Part 514.

This document also advises the public that any future preliminary drafts of regulations or amendments released by the Commission will include a deadline for the submittal of written comments to the Commission. The Commission intends to provide the public at least 30 days for the submittal of written comments on preliminary drafts.

File Formats and Required Information for Submitting Comments

If submitting by electronic mail: send to reg.review@nigc.gov a message containing the name of the person making the submission, his or her title and organization (if the submission of an organization), mailing address, telephone number, fax number (if any), and e-mail address. The document itself must be sent as an attachment and must be in a single file and in recent, if not current, versions of: (1) Adobe Portable Document File (PDF) format (preferred); or (2) Microsoft Word file formats.

If submitting by print only: Anyone who is unable to submit a comment in electronic form should submit an original and two paper copies by hand or by mail to the address listed above. Use of surface mail is strongly discouraged owing to the uncertainty of timely delivery.

Authority: 25 U.S.C. 2706(b)(10); E.O. 13175.

Tracie L. Stevens,
Chairwoman.

Steffani A. Cochran,
Vice-Chairwoman.

Daniel J. Little,
Associate Commissioner.

BILLING CODE 7565-01-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2011-0002; Internal Agency Docket No. FEMA-B-1192]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1% annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this proposed rule is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, these elevations, once finalized, will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents in those buildings.

DATES: Comments are to be submitted on or before August 8, 2011.

ADDRESSES: The corresponding preliminary Flood Insurance Rate Map (FIRM) for the proposed BFEs for each community is available for inspection at the community's map repository. The respective addresses are listed in the table below.

You may submit comments, identified by Docket No. FEMA-B-1192, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064, or (e-mail) luis.rodriguez1@dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064, or (e-mail) luis.rodriguez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency

(FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are

made final, and for the contents in those buildings.

Comments on any aspect of the Flood Insurance Study and FIRM, other than the proposed BFEs, will be considered. A letter acknowledging receipt of any comments will not be sent.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Executive Order 12866, Regulatory Planning and Review. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866, as amended.

Executive Order 13132, Federalism. This proposed rule involves no policies

that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

Flooding source(s)	Location of referenced elevation**	*Elevation in feet (NGVD) +Elevation in feet (NAVD) #Depth in feet above ground ^Elevation in meters (MSL)		Communities affected
		Effective	Modified	
Sacramento County, California, and Incorporated Areas				
Dry Creek	Approximately 1.6 miles upstream of the Natomas East Main Drainage Canal confluence.	+41	+42	City of Sacramento, Unincorporated Areas of Sacramento County.
Dry Creek (North Branch)	Approximately 0.4 mile upstream of Elverta Road	+75	+77	
	At the Dry Creek confluence	+41	+43	Unincorporated Areas of Sacramento County.
	At the divergence from Dry Creek	+71	+73	
Grand Island (static flooding)—floodplain area between Sacramento River and Steamboat Slough.	At the area between Highway 160 and Grand Island Road.	None	+10	Unincorporated Areas of Sacramento County.
Linda Creek	Approximately 0.7 mile downstream of Indian Creek Drive.	+172	+173	Unincorporated Areas of Sacramento County.
	Approximately 1.0 mile upstream of Cherry Avenue (at the county boundary).	+268	+271	
Linda Creek (South Branch)	At the Linda Creek confluence	+196	+198	Unincorporated Areas of Sacramento County.
Pierson District (static flooding)—floodplain area east of Sacramento River.	Approximately 700 feet upstream of Walnut Avenue ..	None	+235	Unincorporated Areas of Sacramento County.
	At the area north and east of River Road, south of Randall Island Road, and west of the levee extending from River Road to the intersection of Randall Island Road and State Highway 24.	None	+16	
RD 744 (static flooding)—floodplain area east of Sacramento River.	At the area south and east of River Road	None	+20	Unincorporated Areas of Sacramento County.
RD 746 (static flooding)—floodplain area east of Sacramento River.	At the area north of Blair Street and east of River Road.	None	+18	Unincorporated Areas of Sacramento County.
RD 813 (static flooding)—floodplain area east of Sacramento River.	At the area southeast of River Road, northeast of Herzog Road, and south of Blair Street.	None	+17	Unincorporated Areas of Sacramento County.
Sheet Flow Areas (AO Zones).	At the area between Bradshaw Road and Gerber Road and approximately 0.4 mile north of Carmen Cita Avenue.	#1	#2	Unincorporated Areas of Sacramento County.

Flooding source(s)	Location of referenced elevation**	*Elevation in feet (NGVD) +Elevation in feet (NAVD) #Depth in feet above ground ^Elevation in meters (MSL)		Communities affected
		Effective	Modified	
Sheet Flow Areas (AO Zones).	At the area approximately 0.8 mile east of the intersection of Bradshaw Road and Elder Creek Road and approximately 0.9 mile south of Jackson Road.	#2	#1	Unincorporated Areas of Sacramento County.
Sierra Creek	At the Dry Creek confluence	+69	+70	Unincorporated Areas of Sacramento County.
Sutter Island (static flooding)—floodplain area between Sacramento River, Steamboat Slough, and Sutter Slough.	Approximately 260 feet upstream of 28th Street	+69	+70	Unincorporated Areas of Sacramento County.
	At the area between Highway 160 and Sutter Island Road.	None	+16
